

**Professional track students at EUROSUD – UAM**  
(Semester 4)

Documents

Students in the professional track should send to the coordinator at UAM until mid October:

**1. A list of preferences (no less than 3) of institutions where you would like to their internship**

- The institutions can be in Spain or abroad.
- Please, include as many contact and other details as possible
- We will contact the institutions in the order you establish. If the institutions do not respond, UAM will suggest and explore other possibilities.
- Students should make sure that those institutions offer the possibility for internships outside of a pre-established procedure (which is what most European and international institutions do).
- If there are pre-established procedures, the students can apply on their own and keep the coordinator of Y2 university informed about it.

**2. Motivation letters**

- You should enclose as many letters as institutions you suggest
- Each letter should be addressed to the contact person of that institution
- The letter should explain why you think you are good candidate

**3. A curriculum vitae**
