Course selection and changes – during mobility

How to request changes at host faculty

The course selection website ori.feco.uam.es is not active anymore. You will be officially enrolled in the courses you selected through that platform.

Your matricula in SIGMA is your official enrolment document and the courses that are included in this document are the ones that will show in your Transcript of Records after you finish your mobility stay at UAM.

If you want to request changes you need to complete the on-line form. Through this form you can request to add, delete, or request group changes of courses.

<https://forms.office.com/r/MEaEKii8HW>

Form only active during these dates
From: 30/01/2023 (9:00 AM)
Until: 06/02/2023 (17:00)
Answers: 13/02/2023 at the latest

Deadline changes to your matricula:
24/02/2023

The requests will be reviewed in request date order. This means that the quicker you complete the form the higher you will be on the waiting list but bear in mind that you depend on fellow students' changes for the courses that are full. You must wait until a spot becomes available for you and it is possible that this won't happen. We recommend you include alternative courses in order of your preference and use the comment box to indicate how many courses you really need.

Take note of the dates as change of courses are not indefinite. You must attend classes in at least 80% to be admitted for the final exams.

Remember that you are **not allowed** to take

- First year courses
- Group codes that end with **XX9**
- Asignaturas transversales

Check our Course Catalogue 22-23 for a full list of available courses and groups.

Make sure to check the timetable for each course to avoid clashes.

Estudios → horarios y aulas de clase

The advantage of being able to choose courses from all our degrees and different years leads to the inconvenience of having to check the timetables carefully.

In case the timetable partially clashes, the professor of the corresponding course is the only person who can authorize your non-attendance.

Courses from other faculties

How to request courses outside your host faculty

Before requesting courses from other UAM faculties, you must make sure that these are open to international students. Their offer for other faculty's incoming students might be restrictive, especially regarding admission to their English-taught courses. Both UAM Engineering School (EPS) and UAM Faculty of Arts (Filosofía y Letras) informed that their English-taught courses would not admit additional exchange students in September.

If you still want to have a go, you need to use the corresponding on-line form. On page 2 you will have information regarding the courses offered at each faculty.

Deadline changes to your matricula:

These requests will be reviewed after their faculty's own incoming students requests, which means that it can take up to 3 weeks before you receive an answer. In the meantime, and if the professor agrees, you can join the classes, but you need to be aware that if finally, you cannot be accepted for the course, you will need to stop attending.

Once you are accepted for the course, your host faculty will include the course(s) in your matricula.

SIGMA and Moodle

Academic and virtual campus

SIGMA: Academic platform used for student's official registration and course enrollment. Only the courses in your matrícula will be graded and included in your Transcript of Records.

Bear in mind that after February 24, you won't be able to make changes anymore. In case you are enrolled in a course and you decide to stop attending courses, the final grade for this course in your Transcript of Records will show "no evaluado", not evaluated. It won't affect the average of grades obtained for your other courses.

SIGMA platform (student's portal):

https://secretaria-virtual.uam.es/Navegacion/InicioAlumno_cons.html

UAM user account reset / activation form: <https://id.uam.es/id>

helpdesk: cau@uam.es

Moodle: Online Learning Platform used by professors to share information with students and upload presentations.

Once you are enrolled in your courses in SIGMA by the International Relations Office, these will appear automatically in Moodle. Bear in mind that Moodle can take up to 48 hours to update. Professors can add students in Moodle for their courses, but this is **not official**, so always make sure that your courses appear correctly in SIGMA.
