Site: La Cristalera

8:30 Registration

9:00 Welcome: APE and APP presidents, and Miraflores de la Sierra Mayor.

Chair: Catarina Casanova

9:30 Non Regression Models of Homosexual Men and Women Partner Age Preferences

Braschi & Gil Burmann

9:50 A Statistical Modeling Approach to the Occurrence of In-group Bias in Preschool Affiliative Networks

Daniel, Santos, Vaughn & Peceguina

10:10 Effect of the Social System on the Behavioural Patterns of two Colobine Species in Guinea Bissau

Minhós, Sousa, Vicente & Bruford

10:30 What does it mean to be FRIENDS amongst Guinea Baboons (*Papio hamadryas papio*)?

Almeida & Casanova

10:50 Coffee-break

Chair: Carlos Gil Burmann

11:20 Reproductive Energetics in Primates: How Costly are Babies?

Phyllis C. Lee (Department of Psychology, University of Stirling, Scotland, UK)

12:40 Parent-infant Conflict in Feeding Contexts in Cotton Top Tamarins (*Saguinus oedipus*)

Caperos, Sánchez, Peláez, Fidalgo & Morcillo

13:00 Reconciliation and Post-conflict Anxiety in Brown Capuchins

Daniel, Santos & Cruz

13:20 Spontaneous and Flexible Use of Tools as Straws by Orangutans

Marín & Call

13:40 Poster session.

14:10 Lunch

Chair: Jose Manuel Caperos

15:30 Paternal Behaviour in New World Monkeys

Gustl Anzenberger (Anthropological Institute and Museum, University of Zürich, Switzerland)

16:50 Group Size, Sex Ratio, Length of Interbirth Interval and Female Reproductive Success in a Harem-forming Colony of Baboons (*Papio hamadryas*)

Polo, Colmenares & Lloreda

17:10 Orangutans insightfully solve a cognitively more demanding version of the water-as-a-tool task

Sebastian, Colmenares, Mendes & Call

17:30 Coffee-break

Chair: Yván Lledo-Ferrer

18:00 Acquisition Patterns and Handedness in the Use of Leaves for Drinking Water by Wild Chimpanzees (*Pan troglodytes verus*)

Sousa & Matsuzawa

18:20 Functional Asymmetry in 58 Spontaneous Actions in Naturalistic Housed Chimpanzees from the Mona Foundation (Spain)

Llorente, Riba, Mosquera, Fabré & Feliu

18:40 Population-level Right Handedness for a Coordinated Bimanual Task in Naturalistic Housed Chimpanzees: Replication and Extension in 114 animals from Zambia and Spain

Llorente, Palou, Carrasco, Riba, Mosquera, Collel, Fabre & Feliú

19:00 Hand preference in simple and complex tasks in naturalistic-housed chimpanzees at the Mona Foundation (Spain).

Riba, Llorente, Mosquera & Feliú

19:20 Poster session.

20:30 Dinner

Friday, October 2

Site: La Cristalera
