

1 Postdoc Research Position in Supramolecular Chemistry and Molecular Materials at the Universidad Autónoma de Madrid

We are looking for motivated scientists to work in the interdisciplinary *Nanostructured Molecular Systems and Materials* group (MSMn; www.uam.es/proyectosinv/msmn/) at the *Institute for Advanced Research in Chemical Sciences (IAdChem)* in the Universidad Autónoma de Madrid.

	Postdoc Position
Application Deadline	31 / 05 / 2018
Expected Starting Date	01/07/2018 (flexible)
Duration	12 months (extendable)
Main background	Supramolecular chemistry / Molecular materials
Additional experience (not required, but positively considered)	- Excellent English level - Postdoctoral experience abroad - Experience in supramolecular chemistry / molecular materials
Research Focus	Development of smart polymeric materials with diverse unconventional properties and abilities: self-assembly, adhesion via molecular recognition and/or self-healing.
Additional Requisites	- PhD title
Funding Source	European Research Council (ERC-PoC PolyHeal)

Applications should be submitted to: david.gonzalez.rodriquez@uam.es

indicating the applied position (PhD / Postdoc) and including:

- **CV** with Bachelor and Master Grades, publications list, and contact details of at least two referees
- **Optional**: motivation letter, research summary, recommendation letters, etc.
