

Conference Announcement

Dear all,

With the success of Chemeet 2022, we are writing this email on behalf of Prof. Geoffrey Robert Mitchell to announce the second edition of the Chemeet conference – Chemeet 2023.

We are happy to inform you that the Chemeet 2023 has been scheduled for June 26-28, 2023 in Madrid, Spain. The committee of Chemeet has planned to hold the conference in a hybrid way so that you can join the discussion virtually if you are not able to join the meeting physically in Spain.

In this regard, we request you confirm your participation in the conference so we can add your name to the program.

For abstract and other information, please visit.

<https://chemeetconference.com/>

Do not hesitate to contact us if you have any queries so that we can assist you.

Awaiting your response.

Best Regards,

Juan Carlos del Valle (Departamento de Química Física Aplicada, UAM)
