

## MASTER'S DEGREE IN DEEP LEARNING FOR AUDIO AND VIDEO SIGNAL PROCESSING

### Criteria for the admission process

The following criteria are defined for the selection process of the applicants to the master's degree in *Deep Learning for audio and video signal processing*:

- **Academic record** in the degree allowing the access to this master [40-60%]
- **Additional merits** to the academic record included in the Curriculum Vitae of the applicant [10-30%]
- **Adaptation of the applicant's profile** to the contents and objectives of the master's programme [10-40%]

If needed, the Master's Academic Committee, or the members in which it may delegate, can hold an interview with the applicants in order to accurately assess their merits and the adequacy of their profile to the program.
