Another option is to pursue a course about Spanish Language, Literature and Culture during July and August. The groups are smaller, and are according to linguistic competence but also according to thematic focus: Spanish language, Grammar, Spanish culture and complementary activities (visit to the media, trips, movie club, visits to museums). Depending on whether the student enrolls to study one month or both, the course lasts 80 hours or 160 hours. At the end, a diploma is granted if the student has successfully passed the final exams. Both courses are given in the Faculty

**Facilities of the Faculty of Economics and Business**

The Faculty offers a very active service of information, both in person and on the Internet ([http://www.uam.es/otros/ofineco/](http://www.uam.es/otros/ofineco/)). The **Office of Information for Students** is located on the 2nd floor of the Faculty building. The office can also be contacted via email ([informacion.estudiantes.economicas@uam.es](mailto:informacion.estudiantes.economicas@uam.es)) or phone (914977070).

As for the **Practicum Office**, the Faculty offers its students the possibility of informing themselves, getting in touch with, and doing internships at prestigious companies, while they continue their studies. UAM is very committed towards the future of its students, so it also offers an Employment Forum, a Virtual Employment Forum and the COIE (Centre for Orientation and Information about Employment), where students can be awarded with an internship at the proper University.

Another important facility of the Faculty is the **Library**. Its contents range from Economic Analysis, Applied Economics, Economic Structure, Commercial Research, to Sociology and Tourism. Also, the Library displays a great variety of media: printed books, electronic books, magazines, thesis, reference works, database, special materials, etc. Another feature of the Library is the large list of courses it offers for students, professors and researchers alike, in multiple themes ([http://biblioteca.uam.es/sc/cursosformacion.html](http://biblioteca.uam.es/sc/cursosformacion.html)). Moreover, the Library has a Statistics Documentation Centre and lends laptops to students.

Most professors leave their notes and class material in the **Photocopy Room**, called ‘Reprografía’. Reprografía also offers students the possibility to print documents from USB keys, CD-ROM, bind their essays, etc... at a cheaper price than in town. The Reprografía is located in the Plaza Mayor building.
Throughout the Faculty there are several Study Rooms, designed for group work and very popular especially during the exam period.

The IT Rooms are also a favorite among students, and offer a range of courses and IT services, with more than 900 computers on campus.

There are two cafeterias inside the Faculty, both with lunch service. Also, there are dining halls with microwaves so students can heat their own food. These halls are open from 13 pm to 16 pm.
