

“Europe in the XXI Century”

A Rome-Paris Summer Program on Europe

June 19, 2017 - July 07, 2017

Why on Europe?

Why does the European Union exist? Why have a group of states decided to gather together in a supranational entity? Will the European Union continue to exist, despite nationalist claims currently spreading throughout the continent? These and other issues will be addressed in the Summer Program on Europe. Today, the future and the very existence of a united Europe seem to be at stake. Yet, the European Union phenomenon continues to be of paramount importance as an example of integration among states.

Why Rome and Paris?

Both cities constitute the very heart of the European integration. The rivalry and competition between France and Germany are among the reasons that provoked two violent and dramatic global wars. Together, France and Germany decided to cooperate with the aim of pursuing a long-lasting peace. At the same time, Italy is one of the founding members of the European Union and Rome is the city where the first formal step towards the European integration was made.

WHY LUISS and Paris-Dauphine?

Both universities are located in the centre of the respective host cities. Their campuses present a modern study environment with classrooms, libraries, e-resources, sports facilities and cafeteria. LUISS and Paris-Dauphine share the mission of educating future generations of executives, entrepreneurs, leaders and scholars through an innovative educational approach and thanks to their privileged relationship with the business world.

WHY choose this program?

BECAUSE it will be a once-in-a-lifetime experience

BECAUSE it will give you a comprehensive understanding of the EU functioning

BECAUSE you will take a journey in the very heart of European institutions

BECAUSE in a short-time period you will experience different European lifestyles BECAUSE it will give you the chance to discover the cities from a cultural, historic and artistic point of view
