

LIST OF SUBJECTS OFFERED IN ENGLISH

University Master's in Molecular Biomedicine

[Link to Master](#)

COD.	SUBJECT NAME	Sem	ECTS
33524	Critical Analysis of Scientific Literature	1	3
33525	Applied Statistics for Molecular Bioscience	1	3
31048	Molecular Pharmacology	1	6
33528	Genetically modified animals: Strategies and Applications	1	6
32814	Cancer Biology	2	6
32816	Advances in the Study of Immune Diseases and Inflammation	1	6
32817	Advances in Research on Diseases of the Nervous System	2	6
33529	Frontiers of cardiovascular research	2	6
32819	Molecular Genetics of Rare Diseases	2	6
32820	Master's Thesis	2	30

University Master's in Epidemiology

[Link to Master](#)

COD.	SUBJECT NAME	Sem	ECTS
33348	An introduction to missing data in epidemiological research	2	2

University Master's in Pharmacology Research

[Link to Master](#)

COD.	SUBJECT NAME	Sem	ECTS
33198	Interaction Drug-organism	1	2
33199	Physiological Basis of Therapeutics	1	4
33200	Pharmacology of Organs and Systems	1	4
33201	Methodology in Clinical Trials	1	2
33202	Communication and scientific documentation/data analysis	1	3
33203	Techniques in Experimental Pharmacology	2	5
33204	Therapeutic Targets in Cardiovascular Pharmacology	2	5
33205	Therapeutic Targets in Neuropsychopharmacology	2	5
33207	Drug design: from classical to "in silico"	2	5
33208	Master's Thesis	2	30

University Master's in Neuroscience

[Link to Master](#)

COD.	SUBJECT NAME	Sem	ECTS
33392	Advanced Neuroscience Monographs	1	2

Master's Degree in Bioinformatics and Computational Biology

[Link to Master](#)

All subjects of this master`s degree can be taught in English if an international student ask for it. Otherwise they will be taught in Spanish
