

FACULTAD DE
CIENCIAS
UNIVERSIDAD AUTÓNOMA DE MADRID

The Research Catalysis Group Frontiers in Catalysis: FRONTCAT (Universidad Autónoma de Madrid, www.uam.es/jose.aleman) is devoted to catalysis in three main different areas: organocatalysis, asymmetric metallic catalysis, and more recently we have started to contribute in the area of material catalysis. *Currently, we are looking for a Postdoctoral researcher* highly motivated who are interested in catalysis.

Research topic: The applicant will work on the development of new organocatalytic and photocatalytic reaction to synthesize important pharmaceutical active compounds.

Research Center: Science Faculty, Universidad Autónoma de Madrid.

Starting Date and Term: The post is available starting from september 2018 for a fixed-term of 3 months.

Requirements: We seek outstanding researchers with Ph. D. in Organic chemistry and catalysis. Experience in ***anion-binding catalysis*** will be highly considered. Proficiency in written and spoken English are essential.

Applications: A brief CV (maximum 2 pages) and one reference letter are required (email to jose.aleman@uam.es). Two contacting professors or researchers that know the candidate must be provided.

Deadline: 10th september, 2018
